

Overview

This Short Course (SC), namely Risk Management (SC5), is a one of a series of seven offered by TorqAid. Details of these can be found at www.torqaid.com/short-courses

- SC1 : Humanitarian Attributes, Standards & Codes of Conduct
- SC2 : Key Disaster Risk Management (DRM) diagrams
- SC3 : The Project Management Cycle (PMC) and Project Design Document (PDD)
- SC4 : The Ten Seed Technique (TST) ranking tool, and Seasonal Calendar
- SC5 : Risk Management
- SC6 : Teaching Tips and Humanitarian Evaluation Criteria (HEC)
- SC7 : The Rohingya Humanitarian Crisis

These SCs are of a minimum of 1.0 – 1.5 hours in duration, and are designed both for the Global Humanitarian or Development Professional, as well as for the interested tertiary or secondary students. Together they give an overview of some key issues relating to global humanitarian and development work.

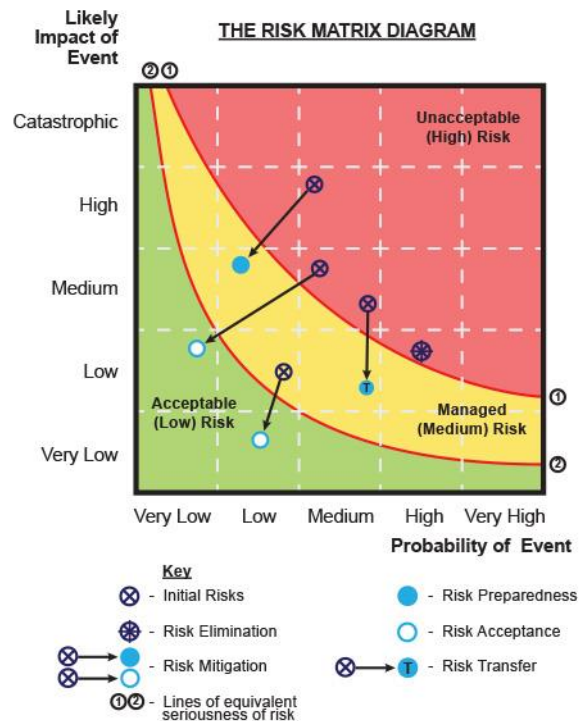

SC5: Risk Management

The TorqAid document ‘A DRM Diagrammatic Framework’, describes risk (and other complementary material) in detail – see <http://www.torqaid.com/drm-framework>

Risk is a function of hazards, vulnerability and capacity. The Disaster Risk Reduction (DRR) diagram, introduced in SC 2, highlights the six complementary components of DRR.

The ISO 31000 risk management process is used by many governments globally to assess and treat risk. The Tens Seed Technique (see SC 4) is a highly useful tool in working through this ISO 31000 process.

Issues of risk can then be illustrated diagrammatically both by the Risk Matrix (see enclosed), and the Risk Management Table.

For information and costings of this (or indeed other) Short Courses, please contact Chris Piper, the TorqAid CEO, on pipercm@iprimus.com.au
