ACAPS. (2020). *Crisis InSight*. Retrieved from <https://www.acaps.org/countries>
CrisisInSight is the new ACAPS analysis portfolio which enables the reader to compare the severity of crises globally as well as the level of humanitarian access, while providing trends analysis and a forward-looking scan for risks. In order to measure the severity of a crisis, ACAPS uses the INFORM Global Crisis Severity Index (GCSI) which brings together 31 core indicators, organised in three dimensions, namely impact, conditions of affected people, and complexity.
